

First Place presented to: **Cristian A. Alistarh**, from Heriot-Watt University, UK for his contribution entitled: "Spectral Smoothing by Multiple Radar Pattern Multiplication for Improved Accuracy"

Award presented by: Shahed Shahir, for IEEE – Kitchener Waterloo Section

Second Place presented to: **Mohamed K. Emara**, from Carleton University, Ottawa, "A Low-Profile Dual-Band Tunable AMC Structure for GNSS Antennas and Its Performance Trade-Offs"

Award presented by: Lot Shafai, for ANTEM 2018

Third Place presented to: **Nadeem Ashraf**, from Concordia University, Montréal, "End-Launch Horn Antenna Array for Ka-band 5G Applications"

Award presented by: Sujeet Chaudhuri, for ANTEM 2018
